

Plant Unkiller

Mesa Hacks
2018

Julio Galan • Johnny Rivera • Christina Ortega

Initial Idea

Something that encouraged people to be sustainable at home

Houseplants

Q: What are ways people can bring nature indoors?

Benefits:

1. Reduce carbon dioxide
2. Reduce pollutants
3. Reduce airborne dust levels

Keeping Them Alive

[the Unkiller...]

Unkiller is meant to remind people about taking care of their plants

It features plant info
(soil needed/amount)

It features facts, “did you know”
messages about sustainability

Project Description

Plant Unkiller will remind people when to take care of your houseplants so that they can be as sustainable as they wish to be

People will create an account online to receive a link to download a desktop app; through app, people will receive text/sms notifications/reminders about keeping their plants alive

[the Unkiller...]
